PREFACE

The tables that comprise this appendix to Volume VII have been compiled from data collected from 1983 to 1987. Tables 1 and 2, and Figure 1 in Part 1 of Volume VII show the locations of the sampling stations and list the parameters for which analyses were performed.

The chemical analysis results have been ranked within the tables in order of decreasing concentrations. This permits a rapid assessment of the relative degree of contamination at each location. All data have been reported previously and more specific site by site analyses are presented in Persaud *et al.* (1987) and Jaagumagi *et al.* (1990a, 1990b, 1991a, 1991b, 1991c). The chemical analysis methods and sample collection methods are those described in the OMOE Guide to Laboratory Samples and in Volume III of the In-Place Pollutants Program (Persaud *et al.* 1987).

Table of Contents

Table 1	Sediment Bulk Metal Concentrations	1
Table 2	Sediment PCB and Organochlorine Pesticide Concentrations	25
Table 3	Sediment PAH Concentrations	73
Table 4	Sediment Chlorophenols Concentrations	85
Table 5	Bottom Water Metal Concentrations	89
Table 6	Bottom Water PCB and Organochlorine Pesticide Concentrations	104
Table 7	Benthic Invertebrate Tissue Metal Residues and Corresponding Sediment Concentrations	134
Table 8	Benthos-Sediment Concentration Ratios for Metals	150
Table 9	Benthic Invertebrate Tissue Residues and Corresponding Sediment Concentrations of PCBs and Organochlorine Pesticides	158
Table 10	Benthic Invertebrate Tissue Residues and Corresponding Sediment Concentrations of Polynuclear Aromatic Hydrocarbons	187
Table 11	Benthic Invertebrate Tissue Residues and Corresponding Sediment Concentrations of Chlorophenols	195

Table 1a: Sediment Bulk Metal Concentrations at In-Place Pollutants Sites, 1983 - 1987. (in ug/g dry weight)
Locations are listed in order of decreasing sediment concentrations.

Rank	Total Organic Carbon (mg/g)			Aluminum			Arsenic			Cadmium

Table 9a: Benthic Invertebrate Tissue Residues and Corresponding Sediment Concentrations of PCBs and Organochlorine Pesticides at In-Place Pollutants Sites 1985-1987 (ng/g).

Locations are listed in order of decreasing tissue concentrations.

Sediment concentrations are in dry weight, tissue residues in wet weight.

Table 9b: Benthic Invertebrate Tissue Residues and Corresponding Sediment Concentrations of PCBs and Organochlorine Pesticides at In-Place Pollutants Sites 1985-1987 (ng/g).

Locations are listed in order of decreasing tissue concentrations.

Sediment concentrations are in dry weight, tissue residues in wet weight.

Table 9c: Benthic Invertebrate Tissue Residues and Corresponding Sediment Concentrations of PCBs and Organochlorine Pesticides at In-Place Pollutants Sites 1985-1987 (ng/g).

Locations are listed in order of decreasing tissue concentrations.

Sediment concentrations are in dry weight, tissue residues in wet weight.

Table 9d: Benthic Invertebrate Tissue Residues and Corresponding Sediment Concentrations of PCBs and Organochlorine Pesticides at In-Place Pollutants Sites 1985-1987 (ng/g).

Locations are listed in order of decreasing tissue concentrations.

Sediment concentrations are in dry weight, tissue residues in wet weight.

Table 9e: Benthic Invertebrate Tissue Residues and Corresponding Sediment Concentrations of PCBs and Organochlorine Pesticides at In-Place Pollutants Sites 1985-1987 (ng/g).

Locations are listed in order of decreasing tissue concentrations.

Sediment concentrations are in dry weight, tissue residues in wet weight.

Table 9f: Benthic Invertebrate Tissue Residues and Corresponding Sediment Concentrations of PCBs and Organochlorine Pesticides at In-Place Pollutants Sites 1985-1987 (ng/g).

Locations are listed in order of decreasing tissue concentrations.

Sediment concentrations are in dry weight, tissue residues in wet weight.

Table 10a: Benthic Invertebrate Tissue Residues and Corresponding Sediment Concentrations of Polynuclear Aromatic Hydrocarbons at In-Place Pollutants Sites 1985-1987 (ug/g).

Locations are listed in order of decreasing tissue concentrations.

Sediment concentrations are in dry weight, tissue residues in wet weight.

Table 10b: Benthic Invertebrate Tissue Residues and Corresponding Sediment Concentrations of Polynuclear Aromatic Hydrocarbons at In-Place Pollutants Sites 1985-1987 (ug/g).

Locations are listed in order of decreasing tissue concentrations.

Sediment concentrations are in dry weight, tissue residues in wet weight.

Acenaphthene				Fluorene				Phenanthrene				Anthracene

Table 10d: Benthic Invertebrate Tissue Residues and Corresponding Sediment Concentrations of Polynuclear Aromatic Hydrocarbons at In-Place Pollutants Sites 1985-1987 (ug/g).

Locations are listed in order of decreasing tissue concentrations.

Sediment concentrations are in dry weight, tissue residues in wet weight.
